Prospects for Other Oilseeds

- On a global basis, lower production is expected for competing oilseeds in 2000.
  - Rapeseed in Canada and EU
  - Sunflowerseed in Argentina

- Current estimates will lead to tighter stocks by the end of the 2000 marketing year.
Chinese Soy Imports

- Market is currently paying a lot of attention to Chinese imports.

- In recent years, there's been a shift from products to the whole bean.
